

# Good Food is:

**Healthy:** Provides nourishment

**Green:** Is environmentally friendly

**Fair:** No one is exploited

**Affordable:** All people have equal access

**Vision:** We envision a thriving economy, equity, and sustainability for all of Michigan and its people through a food system rooted in local communities and centered on good food.

## Food Policy Council

Food Policy Councils are umbrella terms for diverse teams and members participating in the food movement. Through extensive research, advertising, oversight, advocating for policy change and dialogue with the public, we attempt to work from a food systems perspective, integrating and balancing the various issues and interests that shape the food system in the Lansing region.
